The Most Wonderful Remedy in the World!

Relieves certain cure for Chilblains, Pilas, Rheumatism, Sore Throat, Piles, Inflammation, Salt Rheum, Corns, Warts, Chapped Hands, Fresh Wounds, Skin and Scalp, Ague in the Face and Breast, and all eruptive diseases. This Ointment is the best medicine of the day is equal to any when taken into the wonderful

DR. J. J. GALLUP'S COMPOUND SYRUP OF BRIER ROOT!

A certain cure for Dysentery, Cholera Morbus, Cholera-Infantum, Summer Complaints, Worms, Colic, Sick Headache, and a sovereign remedy for

This medicine is adapted to all ages, and is the best medicine in the world, and some of its virtues

Dr. J. J. GALLUP'S Vegetable Family Pills!

The best Cathartic Pill in the world, and that is entirely free from Mineral

A certain cure for Bilious Diseases, Dyspepsia, and all Diseases of the Stomach, Liver, Kidneys, Scrofula, Erysipelas, &c. They add tone to the system, restore it to its natural and healthy condition.

FAMILY MEDICINES

Are purely vegetable, and each package is put up with a sheet of directions and recommendations, which is worthy of perusal.

The Proprietor has not been governed by the whim of individuals, but his attention is devoted exclusively to the manufacture of Medicines, which he does not show a disposition to palm off upon the public as a panacea for all the ills that flesh is heir to, but he will say that they are what they purport to be, and will do all that is claimed for them.

Beware of Counterfeits and be sure that you get the genuine with my signature.

No. 49 Washington Street, Albany, New York.

DWIGHT COLBURN, PROPRIETOR

Price 25 Cents. Beware of Counterfeits

C B WALKER, General Agent for the State of Maine, 34 Main street, Bangor. dec16d&w

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds for dwelling-houses and other buildings to be erected in this city, during season. His long experience and excellent workmen in his employ, and his superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames Sashes, and Blinds made to any dimensions and of superior quality, either for a dwelling-house, building or for a less quantity. The time and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their places in the structure.

This business has now become so well assured that only a small margin is left for knowing beforehand the cost of a dwelling house, which the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory near the Rose Place, or at the store of M & Jackson, on Exchange st, and at either place any article may be obtained in large quantities ordered.

Mr Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them in the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers both in quality and price, and so well organized in the business that no man should now think of building in the old and slow and imperfect methods.

Bangor, Feb 28, 1856

LOW'S MARKET,

Wilbor's Compound of Pure Cod Liver Oil and Lime,

A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA BRONCHITIS, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS

TESTIMONIAL.

Dear Sir—I have found in the course of a long and extensive practice, that the seeds of Consumption are by no means to be found as arising from a few individual causes, but that any serious draft upon the physical constitution may leave the sufferer in that prostrate condition which indicates disease. Thus in fever, in scarlet colds, and in rheumatic affections those great disorders of the human frame, the lungs, being perhaps the most frequent and most sensitive organs of the human organization, are made to be the principal sufferers, and the first lung which is smaller than the right is generally the principal seat of disease. Consumption consists of such an affluent of the air passages as prevents a free circulation in the mature of respiration as is necessary to pass the air in and out of each cell of the chest. While the natural respiration is thus impeded it is impossible to contract the disease known as consumption

In a series of long practice, I had found Cod Liver Oil to be a great and efficient agent. I chanced to see your notice of the principles prepared by you, and knowing Cod Liver Oil and Lime I instantly realized the propriety of your combination being for years an experimental chemist, and having studied the medicinal properties of the Lime, which are expressing and healing, you have properly an agent adapted in the treatment of Consumption

I accordingly applied your remedy, and in five months of constant prescribing have the satisfaction of succeeding beyond the first trial I have depended almost entirely in all consumptive cases upon your Cod Liver Oil and Lime. I have found the medical qualities to be a healing and natural tonic and that the final relief arises naturally the process of reformation of the diseased cells of the lungs which have decayed from various causes. Moreover I have, after a careful analysis of your preparation satisfied myself that it not only answers the immediate want of the physician in regard to a restorative agent, but also of to sustenance, incessantly strengthening the rest of the system, and thus giving to a consumptive invalid just what is wanted, viz., the means of sustaining the body while the remedy cure is effected.

Having carefully tested these facts in my entire examination, for so extended practice, I do not hesitate to say to all consumptive invalids—Try Wilbor's Cod Liver Oil and Lime

Western Land Agency.

Persons engaging to remove West or invest in Western Real Estate are invited to call at the office of the subscriber, where they will be able to gain much information relative to the Western country, and post themselves up before starting, thus saving both time and money

Maps of the Western States, showing the lands offered for sale by the large tracts and parts of large tracts of the lands offered for sale throughout the West; pamphlets containing the most approved kinds with full descriptions, prices, and terms of payment Specimens of the

SOIL CEREAL PRODUCTIONS COAL,

and other minerals from many different localities, may also be seen, and thus the emigrant be able to gain much valuable information from the mass of collected matter

From a knowledge of the West, gained by five years' residence and close observation, the subscriber feels confident of being able to give much useful advice, and will be happy to do so GRATIS and furnish letters of introduction or correspondence to all parts of the West—Maps of Illinois showing the

Lands of the Illinois Central Railroad Company,

and descriptions and full particulars relating to them

To Colonies very favorable inducements are held out by large landowners the full particulars of which may be learned from the subscriber and negotiations entered into

The extensive connections with Western land agencies enables the subscriber to offer to the best facilities for purchasing in the way of all Persons investing property in the West can gain reliable information with regard to it if the investigated taxes paid, and also effected on application

Government Lands located on shares or commission All letters of enquiry, enclosing postage stamps fully and promptly answered I be the only office in the East where such information can be obtained in relation to the Western country

W. B YOUNG,

No 38 Union Building, 40 State Street, Boston

TO FARMERS.

Muriate of Lime!

The high price of the special manures, Guano &c., first led to the composition of a fertilizer which should compete all the good qualities, but whose price should place it within the reach of the poorest of the cultivators of the soil The increased demand of last season together with the unanimous testimony of many who have fully proved its efficacy leads the manufacturer to believe that the object has been obtained in the Muriate of Lime, and has induced him to extend the facilities for its manufacture It has been tried upon almost every variety of soil, but is especially adapted to Cereal Plants, Grass &c, Wheat, &c

A pamphlet with testimonials, will be forwarded to any address and all orders by mail, accompanied by the cash, punctually attended to It is sold at the following fixed prices—For less than 10 bbls. $1.10 per Bbl, over 10 Bbls. $1.00, price Bags of 150 lbs. at 75 cts per bag, delivered at any depot or wharf in Boston or Charles town.

IMPORTANT

To Ship-Builders, and others using Copper Fastenings.

The subscriber is now prepared to furnish

E. G. POMEROY'S

PATENT COPPER-COATED IRON SPIKES, BOLTS, DECK BOLTS, COPPERED SHEET IRON,

With all kinds of FASTENINGS used for Ships, from the only manufacturers in the United States—C & J MARSHALL, Newport, Del—superior in strength and at about ONE HALF the cost of Copper Fastenings

Orders sent to TRAIN & PHIPPS, No. 41 Commercial Street, Boston or to the subscriber, (who is the only Agent for their sale and means secure in the New England States) will meet with prompt attention

Samples sent to order, with certificates from A A HAYES, Assayer to the State of Massachusetts, also of Committee on Science and the Arts of the Franklin Institute, Philadelphia, and of those who have used and are using the Fastening

[Copy of a Letter]

BALTIMORE Jan. 3, 1856

Messrs C & J Marshall, Gentlemen At the request of your Agent in Baltimore in regard to our opinion and experience of your copper-coated spikes, we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ships, inasmuch as you have the strength of iron with the preservative qualities of copper

We have used some of your Spikes in old vessels as a substitute for copper and have had occasion to draw them out a few afterwards, and found them with the coating as firm as when they were driven, and with no appearance of oxidation.

Very respectfully yours,

(Signed) JOHN D FARDY & BRO

ADAMS'

WHOLESALE & RETAIL

Corset Warerooms!

28 Winter Street,

BOSTON,

(Removed from Washington)

The Corset Warerooms of Thirty Years

(established in 1825)

Also, the Inventor of

Patent Abdominal Supporter,

and the only place where the genuine article can be obtained

MRS ADAMS has recently returned from Europe, where, among the looms and weaving rooms of Paris, she had devoted the best part of a year in rearranging and symmetrizing the best features of the French Woven Corset, adapting it to the necessities of the peculiar delicate structure of the American women and is happy to say that in these efforts she has been eminently successful, and since presenting her experiments, the increased demand has been continual Thinking it best to introduce these beautiful and easy fitting articles by some other than the formidable name of Stay or Corset she calls them BODICES They are so constructed as to give a sustaining brace to the back, shoulders, and abdomen at the same time inducing an expansion of the chest never before attained in any thing of similar purpose The next consideration is the price, it being as low as the most ordinary and ill-shaped of other manufacture, whilst the style and quality of texture surpasses other goods hitherto disposed of at most exorbitant charges.

Mrs A would invite the attention of dealers, and would assure them that an investment in these goods, at the fixed low prices, is the same as gold already price sold All orders promptly and judiciously attended to

For sale, the WERLEY CORSET, of the Boston Agent as above

☞ Mrs Adams has no store on Washington street, nor are her goods for sale by any agent, or at any other place than the Corset Warerooms, 28 Winter street, Boston

Fifth Congressional District Convention.

The people of the Fifth Congressional District, composed of the counties of Penobscot, Piscataquis and that portion of Aroostook, without regard to past political differences or divisions, who are opposed to the repeal of the Missouri Compromise, to the policy of the present Administration in the extension of Slavery into the Territories, in favor of the admission of Kansas as a Free State, and of restoring the action of the Federal Government to the principles of Washington and Jefferson, are invited to assemble, by delegates, at Exeter corner, on the SEVENTH DAY OF MAY NEXT, at 11 o'clock A. M., for the purpose of choosing three delegates to represent the District in the National Convention to meet at PHILADELPHIA, on the Seventeenth day of June next, for the purpose of recommending candidates to be supported for the offices of President and Vice President of the United States.

The basis of representation which has been recommended by the Republican State Committee will be observed, as follows:—

One delegate to each city, town and plantation, an additional delegate for every hundred votes cast for the Republican candidate for Governor in 1855, and for a fraction over fifty votes a delegate additional.

Per Order of Rep. Con. Dist. Com.

Bangor April 14th 1856.

To the People of the United States.

The People of the United States, without regard to past political differences or divisions, who are opposed to the repeal of the Missouri Compromise, to the policy of the present Administration to the extension of Slavery into the Territories, in favor of the admission of Kansas as a Free State and of restoring the action of the Federal Government to the principles of Washington and Jefferson, are invited by the National Committee, appointed by the Pittsburg Convention on the 22d of February, 1856, to send from each State three delegates from every Congressional District and six Delegates at large, to meet at PHILADELPHIA on the Seventeenth day of June next, for the purpose of recommending candidates to be supported for the offices of President and Vice President of the United States.

Washington, March 29, 1856.

The Political Question of the Day—Kansas Matters.

The principle of making freedom National, in this Union—of resisting the extension of slavery, not only in view of the wrongs of the colored race, but also as a question involving the vital interests of the *white* mechanics and working men of this country—is becoming, every day more prominent as the platform upon which the *people* will contest the coming Presidential election with the office-holders of the administration and the minions of the slave power, both North and South. Kansas is now the battle ground between freedom and slavery. The Southern slaveholding aristocracy have determined to resist its admission as a free State, to the last moment, with the hope that by a postponement of a year or two they may be able to pour into that Territory a sufficient number of pro-slavery settlers to fasten the slavery principle upon the Constitution of the new State—but with the more immediate intention of again outvoting the Free State settlers, by means of a new and more extensive invasion of border ruffians from Missouri. With the latter view, the Northern and Southern pro-slavery men in Congress, are resisting the present application of the people of Kansas for admission, and treating their memorial with contempt, although they come in the same manner that the people of Michigan and of Arkansas formerly approached Congress and were admitted. The intention of the friends of slavery is to reject the Free State Constitution, adopted and presented by an undoubted majority of the *people of Kansas*, and to have another Convention called under the regulations which may be adopted by the Border Ruffian Legislature, which is recognized by President Pierce, and in that manner again to admit voters enough from Missouri to control the elections, and insure a pro-slavery Convention.

That the South is prepared to give up Kansas to *freedom* without a desperate struggle, is an idea founded in deception and delusion. The slaveholders are at this moment straining every nerve, both to turn free Kansas away from the doors of Congress and to colonize the Territory itself with Southern men. They regard it as vitally important to the interests of slavery that Kansas should come in as a slave State.

Hon. W. W. Boyce, M. C., from South Carolina, writes home from Washington, as published in the Winnsboro' (S. C.) Register:

"It is impossible to exaggerate the importance of Kansas to the South. If we lose Kansas we lose Missouri, bring freesoil to the borders of Arkansas and Tennessee, and will have to struggle for the Indian Country behind Arkansas. Kansas is emphatically the key to the future, and if we would command the future, we must command Kansas."

As an appropriate appendage to the above developement of Southern views, we give the following platform of the pro-slavery party, as published in the Kansas "Squatter Sovereign," of March 25th.

Whereas, The Pro-Slavery party in the Union is much larger numerically than the Abolition or Free Negro party, and whereas, the Pro Slavery party is more patriotic and Union loving than the Free Negro party; and whereas, the Pro Slavery party have contributed more of *blood* and *treasure* than the Free Negro party, to the acquisition of the Territories, and whereas, the extension of the limits of slavery conduces to the welfare of both the slave and his master, without detracting from the interest of any other person whatever, *Resolved*,

1. That the South should and will send men enough to Kansas to keep that ascendancy that we now have, particularly as she has something more at stake than a mere abstraction, her very existence depending on the issue.

2. That so soon as we have the requisite population, we will form a Constitution recognizing Slavery, (if we are to judge of the future by the past,) and demand admission, as a sovereign State, into the Union.

3. That when we thus ask admission, should we be refused unless we consent to some degrading qualifications, we will no longer desire to remain in a Union where our equality is not recognized.

4. That we recognize in President Pierce the same fearless, honest, patriotic and enlightened statesman for whom we *thought* we were casting our votes in 1852.

As we said in the commencement, the great question in the coming campaign, is, whether slavery, with its blighting influences upon the free labor of the country, shall be kept out of our National Territories, and thus the spread and growth of the institution checked, or whether it shall once more overleap its boundaries in the States, and make a long stride towards universal dominion. The opponents of slavery extension are now uniting all over the Union, for the purpose of acting vigorously and effectively upon this great question, at the next election. The old and patriotic Whig party in nearly all the Northern States has thrown its whole strength with the Republican party of freedom. In Maine there are still a few designing, office seeking and office holding leaders, calling themselves Whigs, who not only refuse to go with the great mass of the old Whigs in favor of freedom, but who are actually giving all their strength and influence to the Nebraska pro-slavery "democracy." The honest voters whom these men have been able heretofore to draw after them, under pretence that they were the "Whig party," must, by this time, be well aware of the true character and aims of the men, and we are confident they will follow them no longer. They *cannot* follow them farther, without taking sides against freedom in the great contest before us, and in *fact* joining the locofoco democracy, under the lead of Southern slaveholders.

Handsome and Well Deserved Testimonial.

On Thursday evening last, some of the members of the Union St. (Unitarian) Society presented to Mr. F. M. Sabine, the Superintendent of their Sabbath School,—as a tribute of gratitude for his long and devoted services—an elegant gold Chronometer Lever watch, of the manufacture of R. P. Cowderoy, London, with splendid gold chain attached,—the value of both being about $200, also a massive gold pen and pencil case, worth about $30. These elegant presents were purchased of Messrs. Fenno & Hale, and were enclosed in a handsome papier mache box inlaid with pearl. It was at their establishment that we had the pleasure of examining the articles.

Upon the watch-case is the following inscription:

"A Tribute of Gratitude
To Francis M. Sabine,
from
Members of the Unitarian Society,
for his devotedness
As Superintendent of the Sunday School."

The pencil case is inscribed "*To P M. Sabine from Sunday School Friends.*"

The inscriptions were engraved by Mr. Z. S. Fenn, and is a fine specimen of superior workmanship in that line.

Mr. Sabine has, for more than twenty years, performed the responsible duties of Superintendent of the Sabbath School of this large and growing Parish, with signal ability and untiring devotedness. By his Christian life and demeanor, by his faithful precepts and his winning example, he has won the affectionate regards of teachers and scholars, and the gratitude of the parents of the children and members of the Society. The testimonial now offered, elegant though it is, but inadequately expresses the high regard which is felt for Mr Sabine's character and services.

The watch and other articles will remain for a few days at Messrs. Fenno & Hale's, for examination.

The Accommodation Freight Train.—We now receive a mail from Portland each day, by the accommodation freight train, which arrives here at 3.05 P. M. This mail brings letters which arrive in Portland by the previous afternoon train from Boston.

In regard to this accommodation freight train, we would nevertheless remark that the present arrangement affords very little accommodation indeed, either to people on the line of the road who wish to do business in Bangor, or to our own merchants who wish to do business with them. It now arrives at from 3 to half-past 3, P. M. (instead of 11 A. M. as formerly,) and remains *only an hour* before returning again.—Persons coming to the city by that train cannot transact any business unless they remain in the city at least till 9 o'clock the next morning.—The accommodation train as formerly arranged, allowed passengers to devote several hours to business in the city, and still to return home the same evening. There is a general feeling that the old arrangement was the best for our city business, and would also give more passengers to the road.

Fast Day passed off pleasantly among those with whom it is usually a holiday, rather than a season of humiliation fasting and prayer, as recommended by the Governor.—Equestrianism and riding in general, seemed to be the order with a large proportion of the young men. There were some very good riders, among them some medium ditto, and some whose performances were rather remarkable than graceful. Religious services were held in all the churches, and the attendance was as large as is usual. We are sorry to add that there was considerable intoxication in the streets—liquor being easily accessible.

The noble steamer Daniel Webster made her first appearance at our city, for the present season, on Thursday—arriving at her wharf about 3 P. M. There was still some ice running in the river, and her passage up was necessarily slow. The boat has been thoroughly overhauled and put in excellent condition for the campaign. She is still under the able and safe management of Captain Blanchard, and our friend Rushing, one of the most faithful, gentlemanly and accommodating officers in New England, still presides at the Clerk's office.

Lunar Eclipse. There will be an eclipse of the moon to-morrow (Sunday) morning, visible to early risers. It commences here about 5 o'clock and ends about 8. The magnitude of the eclipse will be 8½ digits, or rather more than 2-3ds of the moon's diameter, on her northerly limb, in the south side of the earth's shadow. There will be a few minutes during which the eclipse will be visible by sunlight—a rare occurrence.

New Publications.

Christine—by Laura J. Curtis.

Although the publishers, DeWitt and Davenport, have announced this book, in terms so glowing, as to excite unwonted expectations, we do not think the reader will lay down the book with a feeling of disappointment, from its perusal. With enough of incident in its pages to maintain an interest in the story, till the last leaf is turned, there is not an improbable event or unreal character, in the whole book. If it does not introduce the reader to an exciting story till the first third of the book is read, it awakens interest by its perfect naturalness of description, and its distinct and clear portraiture of character. Throughout the book, the characters are ably sustained. The woman of intellect and genius, in Christine, and the woman of the affections, in Rose, never disappoint you. Each, true to herself, remains a clear and life-like picture in the mind, and the admirers of both *styles* of character, need not complain that injustice is done to either. A noble cause is advocated with success, in these pages, and in the minds of most of its friends, we think the subject will be thought to be fairly treated, and its best aims really advanced by this book. There may be extreme partizans of the reform, who will not be satisfied, but we think the class is small who will not thank this author for her contribution to its best literature. As the production of a young author, who may add many pages to the volume of American literature, we cannot but welcome Christine most cordially, and congratulate the lady who has written it, upon the promise of usefulness, and the prospect of honorable fame, which its pages indicate.

Christine is for sale at Patch & Lewis's Bookstore.

The Roman Exile. By Dr. Gajani, Professor of Civil and Canon Law, and Representative of the People in the Roman Constituent Assembly of 1849. Boston: John P. Jewett & Co.

An interesting auto-biography of one of the distinguished Roman patriots of 1848,—written in good English, and dedicated to Professor Silliman. It is one of the best of the many books which have been written within a few years by refugees from European tyranny. Geo. S. Hillard, Esq., speaks of it in the following complimentary terms:

"It is a simple, unvarnished narrative of a life rich in promise, arrested at the outset by sharp conflicts, and ending in honorable defeat and exile. Incidentally it presents many graphic pictures of Italian life and manners, such as are usually not open to the observation of foreigners. The author is evidently an earnest, truthful, and cultivated person; and his style betrays only here and there marks of his foreign birth. The record of his experiences will give us fresh cause to be grateful for the civil and religious liberty which we enjoy, and to hate the tyranny of which we only know through such reports as these. We are apt to judge of the patriots of Italy, and of Europe generally, solely by their mistakes and their failures; a book like this shows us what they have to endure, and by what stings of provocation they are urged."

For sale by E. F. Duren.

Methodist Conferences. The New England and Providence Conferences, of the M. E. Church, closed their annual sessions, the former at Salem and the latter at Providence, on the 8th inst.

The New England Conference stationed one hundred and thirty-nine preachers. The Rev William Butler was appointed missionary to India and sailed from Boston the day on which the conference closed. Minor Raymond, William Rice, James Porter, L. R. Thayer, Lorenzo Crowell, Thomas Marcy and D. K. Banister were elected delegates to the General Conference to be held in Indianapolis, Indiana, in May next.

The Providence Conference stationed one hundred and thirty-five preachers, and elected Abel Stevens, S. W. Coggeshall, Daniel Wise, P. T. Kenney, E. B. Bradford and G. M. Carpenter delegates to the General Conference.

California Letters. We are informed by the Postmaster of this city, that many persons are still unaware of the fact that the single rate postage on letters to California, is now *ten cents*, instead of six cents as formerly—and that letters are constantly received with the postage only partially paid. The department may, under the law, direct all such letters to be detained.

Rather a Severe Verdict. We see it stated that the editor of the Philadelphia Christian Chronicle, Baptist, has been fined $3,000 for libel on Rev. Mr. Newell, agent of the Baptist Bible Union, in reporting him as having said that "he had no confidence in the common edition of the Bible." The editor offered to prove that Mr Newell used these words, but the court would not permit him to give the truth in evidence.

We learn that letters have recently been received from the Bangor boys in Australia, stating that most of them are doing very well. One of them, Jonathan C. Taylor Jr., has married an estimable English lady, daughter of an Episcopal clergyman, now resident at Ballarat. Young Taylor has been very successful and intends at some future time to remove to the United States and interest himself in rural pursuits. We hope he may make Bangor his choice.

Godey's Lady's Book. The number for May makes its appearance with the punctuality which has become an established feature of that magazine. The great variety, beauty, originality and excellence of the engravings, fashion plates, and other illustrations evince the same unflagging industry and liberal patronage of talent which have ever characterized the publisher. The letter press contains some excellent tales, sketches, and historical articles.

It is said that Mrs. Stowe, the author of Uncle Tom's Cabin, will soon put to press a work illustrating the alleged degradation of the poor white population of the South. She expects to make it appear that Uncle Tom's miseries are but part of the results of slavery, his white brethren keeping him company in the same.

Barque Sarah Park, of Bangor, from Liverpool for Philadelphia, with loss of sails, and apparently in a disabled condition, was passed 12th inst, lat 37, lon 71, by the Solon, at Westport, Mass.

Murder and attempted Suicide at Islesboro'.

Messrs. Wheeler & Lynde,

Yesterday morning a shocking murder was committed in Islesboro' (Long Island) in this County, by Joseph Brown, upon the person of his wife, by cutting her throat in a most brutal manner. He immediately fled, procured a boat, and attempted to make his escape by water to the main land. The alarm being soon given, he was followed by several of the citizens in another boat, and overtaken just before reaching the shore. As soon as he found that he must be taken he jumped overboard with a rope and heavy stone attached to his body. The water however being shoal he could not succeed in eluding the grasp of his pursuers, but was immediately rescued, bound and taken back to the scene of his hellish outrage. A coroner went from this city last evening, and an inquest will probably be held to-day.—Brown spent the night previous to the murder in this city, and left for the scene of his wickedness at 3 o'clock yesterday morning.

The wife is said to have been the subject of many brutal attacks from her husband during the past winter, and was suffering from one of these at the time of the murder. The cause is said to be Rum, and a naturally malicious disposition.

Belfast, April 17, 1856.

The Gold of Australia. The shipments of gold from Australia for eleven months in 1855 were 2,398 064 ounces, against 1,839,885 ounces in 1854. Adding one twelfth for the last month of 1855, the value of gold exported from Australia would be $50,455,000, which will equal the amount shipped from California in the same period.

Dr. Graham who killed Mr. Loring at the St Nicholas Hotel in New York, last year, and was condemned to seven years imprisonment, has recently been pardoned. The Governor says that with the evidence laid before him since the conviction, he thinks the man would not have been convicted.

The Insurance on the Pacific. The insurance on the Pacific is very large, the amount on the ship is $600,000—half in the United States and half in Europe, the freight money is insured for $40,000. Her cargo consisted of six or seven hundred tons, valued at $1,500,000. Most of this was insured. The total insurance amounts to over $2,000,000.

Rhode Island. The representation from all the towns is now complete. The Americans and Republicans, counting the Lieutenant Governor, will have 22 of the 32 members of the Senate, and 52 of the 72 members of the House, being a majority of 44 of the Grand Committee.

Five hundred and twenty-eight Mormon emigrants are on board the ship Enoch Train, now due at Boston. The most of them are adult men and women from Great Britain, miserably deluded with the idea of entering upon an earthly paradise with the Latter Day Saints in Utah.

The barn of Mr. John Dilman of East Machias was burned on the 10th inst., with six or eight head of cattle, several tons of hay, and nearly all his farming utensils. He was absent at the time, in the woods.

The Cone Furnace.—We call attention to the advertisement of Messrs. Chilson, Gould & Co of Boston, relative to the newly invented "Cone Furnace." We understand an agency will soon be established in this city.

The steamer T. F. Secor has been purchased by Capt Kimball, of Farmingdale and is to go on the route between Hallowell and Portland.

The State of Maine ("Straight Whig" organ) calls Franklin Pierce, "New England's favorite son."

One of Webster's Jokes. In 1852, when the Whig Convention was in session, first came news that Gen Scott, who was supposed to be prone to display, particularly in plumage, was nominated for the Presidency. Then came news that William A. Graham, of North Carolina, the land of tar, pitch, and turpentine, was nominated to the Vice Presidency. When this latter piece of intelligence was conveyed to Mr. Webster, he was engaged shaving himself. He stopped, and, having heard the news, remarked, in his low, emphatic manner, as he deliberately wiped his razor,

"Well, I do not see, then, but that the Whig party have tarred and feathered themselves."

Don't Kill the Birds.—A multitude of them have perished during the winter, give the survivors a chance. We fully concur with the Hartford Courant when it says;—Shame on the man or boy who kills robins at this season of the year! It is a dastardly thing—unsportsmanlike. The youth who murders robins in the spring, is the same young man who kills hired horses, because they are hired, cheats his creditors and abuses *his mother*.—These qualities go in clusters, and where you find a boy or man mean enough to shoot a robin in April, you find a coward! Pass the boy who kills robins in April, on to his moral pillory.

Alleged Mail Robbery. Mr. Wm. F. Morrill, for several years past depot master of the K. & P. road in this city, has been arrested by Marshal Stanley on a charge of robbing the mail of a package containing four Land Warrants. This was a painful surprise to all who know Mr. Morrill. His character as an honest and trustworthy man has always been heretofore without reproach in the community and it is sincerely hoped that he may be able to clear himself from the charge. He is under $2000 bonds to take his trial in Portland on the 21st inst.—*Augusta Banner.*

Removal of Judge Davis. Gov. Wells of Maine has removed Judge Davis from the bench of the Supreme Court, in compliance with the request of the Legislature. The Judge was appointed last year, and was said to be personally unpopular at the time. He has gained friends, however, by his course on the bench, and his removal by party votes is much censured.—*Boston Transcript.*

From Turk's Island we learn that up to February 28, 10,000 bushels of salt had been raked, and that the entire ponds of the colony had not been in a better condition at that early period of the salt season for a series of years past.

A Small Experiment.—Mr. Rockwell, the straight Whig candidate for Governor of Connecticut in the late election, received less than a thousand votes in the whole State. He had one vote in Hartford—a Whig gain.—*Worcester Transcript.*

The Effect of a Five Dollar Bill.—A man named Porter says he once had a clerical friend between whom and himself there existed great intimacy.

Every Saturday night, as Porter was sitting balancing his cash, a note would come, requesting "the loan of a *five dollar bill!*" The money was always returned punctually at 8 o'clock on Monday morning. But what puzzled the lender was, the Parson *always returned the very identical note he borrowed.* Since he had discovered this fact he had made private marks on the note; still the same was handed back on Monday morning. On Saturday evening Porter sent a five dollar gold piece, instead of a note, and marked it. Still the very same coin was returned on Monday. Porter got nervous and bilious about it, he could not sleep at night for thinking of it, he would awake his wife in the middle of the night and ask her what *she* thought of such a strange occurrence. He was fast boiling over with curiosity, when a note came from the reverend borrower, one Christmas eve, asking for the loan of *ten* dollars. A brilliant thought struck our friend. He put on his great coat, resolving to call, and demand an explanation of the mystery.

When he was shown into his friend's study he found him plunged in the profoundest melancholy.

"Mr. ***," said our friend, "if you will answer me one question I will let you have the ten dollars."

"How does it happen that you always re-pay me the money you borrow on Saturday night in the very same coin or note, on Monday?"

The parson raised his head, and after a violent struggle, as though he were about to unveil the hoarded mystery of his soul, said, in faltering tones, "Porter, you are a gentleman—a scholar—a Christian and a New Yorker—I know I can rely on your inviolable secrecy—listen to the secret of my eloquence. You know that I am poor, and when I have bought my Sunday dinner, I have seldom a red cent left in my pocket. Now, I maintain that no man can preach the Gospel and blow up his congregation properly without he has got something in his pocket to inspire him with confidence. I have, therefore, borrowed five dollars of you every Saturday that I might feel it occasionally as I preached on Sunday. You know how independently I do preach—how I make the rich shake in their shoes, well, it is all owing to my knowing that I have a five dollar bill in my pocket. Of course, never having to use it for any other purpose, it is not changed, but invariably returned to you the next morning. Now, as Mr George Law is coming to hear me preach to-morrow, I thought I would try the effect of a ten dollar bill sermon on him!"

Somebody has said, and a great many people put faith in the saying, that "we ought always to believe less than we are told." This may be a safe maxim for general use, but when a woman entrusts you, in confidence, of course, with her age, you may always believe a great deal more than you are told.

Green Peas were offered in the Boston market on Friday, at the rate of something like eight dollars per bushel. Rather an expensive luxury.

When you go to drown yourself, always pull off your clothes—they may fit your wife's second husband.

Important Notice,

GARDNER CHILSON has just completed & patented in America, England, and France his new invention, the "CONE" FURNACE, and asks the special attention of those about erecting or remodelling buildings, as well as dealers in Hot Air, Steam, or Hot Water Furnaces, and all interested in steam power, to carefully examine this invention, which entirely CHANGES the PRINCIPLE and CHARACTER of HOT AIR FURNACES—*developing another and a new principle*, and obviating all former objections to their use. The practical operation of a number of these Furnaces, erected during the past winter, points out a new discovery in science by which the most wonderful economy in fuel has been attained and clearly demonstrates that the waste heat lost from chimneys is enough to warm every dwelling in the city. By this invention the heat formerly lost is made to warm the house.

This discovery—so simple in itself—is the daily wonder of those who witness its results, and it becomes a matter of surprise that a plan at once so simple and practical in its operation, should thus far have entirely escaped the notice of scientific men. We believe that no one who investigates this principle will be liable to use a Furnace constructed on any other principle, and we would invite all who would witness its operation to call at the store of CHILSON, GOULD & CO.,
Nos 99 & 100 Blackstone street.

An agent will soon be appointed for the sale of this Furnace in Bangor.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

Congressional.

WASHINGTON, 18th.

SENATE. On motion of Mr. Seward a resolution was adopted directing the committee on post offices to inquire into the expediency of establishing uniformity of postage throughout the U. S.

On motion of Mr. Sumner a resolution was adopted instructing the committee on patents to consider the expediency of amending the patent laws so far as to allow the inhabitants of neighboring British Provinces to enjoy the benefits of these laws on an equal footing in all respects with the people of the U. S.

The bill to authorize the Executive to facilitate the construction of a railroad and telegraph line from the Mississippi river to the Pacific, was considered.

Mr Weller maintained that the government has the constitutional power to construct military and other roads through territories of the U. S. Congress frequently makes appropriations of lands for such purposes. Three hundred and forty thousand dollars he said had been expended to procure reports and surveys, which show that there are three or four practical railroad routes to the Pacific. He had no preference for either. His main desire was to obtain the construction of a road from which branches would emanate, as the necessities of Commerce demanded.

The committee having the subject in charge proposes that the Secretary of War, Secretary of the Interior, and Postmaster General, shall advertise for bids, with authority, under direction of the President, to select the one most favorable. According to his calculation the money invested in such a work would pay thirteen per cent. per annum, estimating the number of passengers back and forth at 60,000 yearly.—The decrease of time in travel will amount to a saving of more than $11,000,000 per annum. He exhibited the great mineral wealth of California, and the extensiveness of the Pacific coast, arguing the pressing necessity for such a road for purposes of commerce, as well as the protection and maintainance of the Union.

Mr. Seward obtained the floor, and the further consideration of the bill was postponed to the 29th inst. Sixteen private bills were passed. Adjourned till Monday.

HOUSE Mr Haven submitted two letters addressed by the Secretary of the Navy to Mr Benson, Chairman of the Committee on Naval Affairs, in which he invites members of Congress to visit the war steamer Merrimac, at Annapolis, stating that the President and himself expect to leave Washington for that city this afternoon, and will visit the arrival there of to-morrow morning's train before going to the steamer.

Mr Washburn of Illinois moved that when the House adjourn it be till Monday. Adopted.

The Committee on Elections reported against the right of Mr Bird B. Chapman to retain his seat as delegate from Nebraska Territory, and in favor of Mr Hiram P. Bennet.

The Deficiency appropriation bill was considered without final action.

A Diabolical Attempt Frustrated.

NEW YORK, April 18.

An attempt was made last night to throw the Boston Express train from the track near Portchester on the New York and New Haven Railroad, by removing the pilot of the engine. Its loss was discovered in time to prevent a serious catastrophe. On the night previous, near the same place, a large rock was placed between the rails, and heavy sleepers spiked across the track. The Portchester special train barely escaped.

Opening of Navigation.

CHICAGO, April 17.

Lake Michigan is about clear of ice. Steamers commenced daily trips between Chicago and Milwaukie, on Tuesday last.

Markets.

NEW YORK, 18th.

Flour firmer at close; common to strait state 6,18 a 6,50; upper Lake 6,25 a 6,56; common to good Ohio 6,37 a 6,75. Southern firm: mixed to good 7,00 a 7,50; fancy and extra 7,56 a 8,62.

Wheat firm; southern white 1,84.

Corn quiet; mixed 61 a 63; white 63 a 66; yellow do, and round yellow, 61 a 65.

Pork better. mess 17,62 a 17,68; prime 15,75. western prime mess 16,75 a 17,25.

Beef lower. country mess 8,25 a 10,00; prime 7,62 a 8; re-packed Chicago 12,25 a 13,00; prime mess 17,00 a 21,00.

Molasses dull; New Orleans 47; Porto Rico 40; Muscovado 32½.

FOUR DAYS

LATER FROM EUROPE.

ARRIVAL OF THE

BALTIC,

AT NEW YORK,

THE TREATY OF PEACE SIGNED.

NEW YORK, April 17.

The steamer Baltic is at anchor outside the bar. Her papers arrived up at 11½ o'clock, without previous announcement.

The Treaty of Peace has been signed by all the Plenipotentiaries.

On Sunday, 30th, great demonstrations were made in Paris, firing cannon, illuminating, &c. English demonstrations much quieter.

Ratifications cannot be exchanged within four weeks.

Steamer Africa arrived out 31st.

Cotton market stronger under peace news, and advanced 1-16 a ⅛; sales for two days 24,000 bales.

Breadstuffs dull, but not lower. Provisions quiet.

Consols advanced to 93½.

The Baltic left Liverpool at 9.15 A. M. Wednesday, 2d inst., and experienced heavy westerly gales to longitude 60. On Friday, 4th, at 9.04 P. M., saw steamer Arabia, bound East. At 11 last night the Baltic passed the Asia, 100 miles east of Sandy Hook. In consequence of the fog, the Baltic stopped at the light ship at 8.30 this morning.

The Baltic brings the news that the signing of peace was announced in Paris and London by salvos of artillery. Paris was illuminated, and in England the church bells were pealed.

Three or four weeks will elapse ere ratifications of the treaty can be exchanged. The details of adjustment have been referred to a commission.

The great event of peace has swallowed up all minor subjects of news.

Signing of the Treaty.

The Paris correspondent of the London Times says, a Council of Ministers was held at the Tuilleries at half-past 11, and remained till 12. The Emperor presided, and gave his last instructions, and Count Walewski returned to his official residence to receive the plenipotentiaries. He came at half-past 12, and after the treaty was read over to them, proceeded to sign it.

The moment the signatures were completed, the signal was given, and the cannon from the Esplanade of the Invalides proclaimed the news. Bulletins, announcing the fact, were posted by Government throughout the city.

England.

Parliament re-assembled on the 31st March. In reply to a question, Lord Palmerston said that though a Treaty of Peace had been signed, yet it was determined by the Congress that the particular conditions of the Treaty should not be made public until the ratifications had been exchanged; at the same time he would express his conviction that the treaty would be deemed satisfactory by England and by Europe.

It would be found that the objects for which the war had been undertaken had been accomplished fully. It would be found that the integrity and independence of the Turkish empire had been secured; it would be found that the treaty is honorable to all contracting parties, and that while on the one hand ... end to a war which every friend to humanity must have naturally wished to see ... on the other hand it will lay the foundation of a peace which, he trusted, would be lasting and enduring.

On Monday, the Lord Mayor of London made official proclamation of Peace from the portico of the Mansion House, and afterwards at the Exchange.

In London at 1 o'clock, the Tower and Park guns fired a salute. Flags were generally displayed in the city, and from the shipping. In the other cities similar displays were made, but not much enthusiasm was shown.

India.

The Santhal districts were quiet. A scarcity is apprehended throughout India, in consequence of the want of rain.

Trade had improved at Bombay; Money easier. Trade at Calcutta inanimate; import market improved.

Italy.

Latest advices from Parma represent the state of siege as being carried out with the utmost vigor. Everything was subjected to military dictation, and the Austrian General Crenneville appears as the real Governor of the city. Upwards of three hundred arrests have been made. The Auditore Bordi was still alive, though no hopes are entertained of his recovery.

Commercial.

The Liverpool Cotton market has been strengthened by the peace news, and prices have advanced.

Breadstuffs continued dull, but prices have not receded; present quotations are called Wheat—red 9s 6d a 10s 1d; white 10s a 11s 6d. Flour—Western Canal 30s a 34s; Philadelphia and Baltimore 35s a 36s per bbl.

Corn—White Indian, top price, 40s; mixed and yellow 30s 6d.

Provisions—Not much doing; buyers of beef still hold off, but holders show no disposition to give way in price, and the business therefore quite in retail. Pork unchanged.

There have been no parcels offering since last advices. Considerable reductions of bacon had been offered at auction and sold hardly at full prices, ranging from 50s 6d to 52s 6d.—Lard quiet at 54s a 55s, pending the landing of recent large arrivals. Tallow steady at last quotations. Resin is reported dull at 4s 7d a 4s 8d. In sugar a moderate business had been done at unchanged rates. Coffee ...

Money.—Since the declaration of peace, the upward movement in the Funds has been steady and decided. Consols advanced gradually to 93½, at which quotation they closed.

SECOND DESPATCH.

Latest Intelligence.

It has already been stated that the members of the Conference have still to perfect a number of secondary arrangements, essential to the new state of relations to be established in the East.

Le Norde says that the organization of the Principalities is one of these reserved subjects and the Debats points out, as another, the special regulations necessary for insuring the free navigation of the Danube.

Marseilles, Tuesday. Affir Bey embarked last night from this port, bearing the treaty to Constantinople, for the ratification of the Sultan. A French officer of rank also embarked on a special mission to the Sultan, from the Emperor of the French.

Admiral Symonds died on the passage from Malta to Marseilles.

Berlin, Tuesday. The announcement of the conclusion of peace in the Prussian Chambers yesterday, was received with cheers.

Congressional.

WASHINGTON, April 17.

SENATE. Mr Sumner made a motion that the committee on commerce be directed to inquire into the character of the commerce known as the Coolie trade, by which large numbers of the Chinese are transported from their country in American ships on alleged contracts for services in distant places. Also, to ascertain if the same is not conducted in violation of an existing treaty with China, and to consider if any legislation is expedient in view to the prohibition of this commerce or to prevent abuses incident thereto on board of American ships, or to extend to it the provisions and penalties of the recent act of Congress regulating the transportation of passengers in American vessels.

The Senate then resumed consideration of the bounty land bill, but without disposing of it adjourned.

HOUSE. On motion of Mr Pringle, the President was requested to have prepared, statements showing the appropriations made during each session of the last three Congresses, particularly distinguishing those made on the recommendations of the President, heads of departments and chiefs of bureaus; likewise what expenditures were made during the same period, and whether defalcations have occurred, and if so, to what amount.

The Senate's fortification bill was then tabled by a large majority, on the ground that it improperly originated in that body.

The consideration of the deficiency appropriation bill was resumed and debated until adjournment.

NOW IS THE TIME.

AUCTION SALE
......OF......
LIVERY STOCK.

I shall sell at Auction on THURSDAY, May 1st, 1856, at 11 o'clock A. M., all the stock connected with the Stable occupied by me, in rear of the Hatch House. Said stock consists of

Horses, Stage and City Coaches, Carryalls, Chaises, Top Buggies, Express and Single Wagons, Sleighs, Harnesses, Robes, Saddles, Bridles,

and all other articles in said Stable, with the buildings occupied by me as Office and Carriage House—said buildings to be removed by the 10th day of May. Also, one pair of Fairbanks' best HAY SCALES. Any part of the above can be had at private sale any time previous to the day of auction. Terms at sale.

This sale will positively take place at the time mentioned.

HENRY MORRILL.
H. A. HEAD, Auctioneer.

Bangor, April 5, 1856

Sewing Machines.
To Clothiers, Tailors, &c.

NOW IS THE TIME, during the dull season, and before the hurry of business, to introduce the Sewing Machines. An investment of $125 in a Sewing Machine will procure more clear profit than a much larger sum invested in any other way. (Having settled all suits against our Machines, there is not a shadow of claim against them.) The Excelsior and Dorcas machines, both infringing our patent, we have prosecuted in the United States Court, having jury trials in separate Courts, and we have come out triumphantly. Next the Wheeler & Wilson, and the Grover & Baker, are expected to come off this month. We therefore caution the public not to purchase or use any of the infringing Machines, if they desire to escape litigation, for we shall claim our rights.
I. M. SINGER & CO.

Sewing Machines.

The great and peculiar advantage of *Singer's Sewing Machine* is this:

One Machine will perform every kind of work perfectly by simply changing the Needle and Thread; the machines are simple in their operation, strong, durable, and not liable to get out of order.

All who wish to purchase, and the public in general, are invited to call at No. 41 Broad street, Bangor. E. W. HANSON, Agent.

THE HATCH HOUSE,
Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.
Bangor, Feb. 26, 1856

STEAMERS.

Summer Arrangement.

The Steamers ATLANTIC Capt. Geo. Knight, and the P. H. BEST CITY, Capt. F. A. Pri will run as follows,

Leave Atlantic Wharf, Portland, every MONDAY, TUESDAY, WEDNESDAY, THURSDAY, and FRIDAY, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock, P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00

Freight forwarded daily over the A. & K. and P. & K. Railroads, to Bangor, and all way stations.

Each Boat is furnished with a large number of State Rooms, for the accommodation of ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the cars for all parts from the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

L. BILLINGS, Agent.
march14 tf

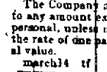

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Reduced Price. 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot at Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 300 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails with passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and Tickets thus signed can be obtained of the *only authorized Agents* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. HARTLETT, Agent,
No. 16 Broad Street, Boston.

Bangor, Jan'y, 1856 dtf

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the above named process, and beautifully colored in Oil, Water Colors or Pastel. Portraits are obtained from the life in a few minutes by this process, requiring no longer sitting than is necessary for a common daguerreotype, thus avoiding the fatigue of long sitting, and consequent restlessness and unnaturalness. Also, new articles of under-clothing, are now for the first time in Bangor offered to the public. They are durable, inexpensive and permanent in color, rendering a perfect likeness. Especially suitable for Rings, Lockets, &c. The Public are invited to call and examine specimens at H. BAILEY'S Portrait Gallery, near Lancaster-street, a few rods below the Bangor House.

Marriage & Visiting Cards

PRINTED, at short notice, at this Office.

GREAT

American and Foreign Office,

FOR

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, late Agent of the U. S. Patent Office under the act of 1837, determined to present advantages in applying for patents, superior to those offered by others, has made arrangements, whereby, on applications prepared and conducted through THIRTY DOLLARS (instead of *more, as heretofore, the same fee to be refunded back by others,*) will be remitted by him in case of failure to obtain a patent, and the way for withdrawal, through rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none are MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting invention, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are herewaved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents,*

TESTIMONIALS.

"During the time I was in the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at this Patent Office as Solicitor for procuring Patents. There are few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the most informed and efficient Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"Augusta, Me., Aug. 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as Solicitor. He is thoroughly conversant with the law and the rules of practice of the Office, and I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents.

A MARVELLOUS REMEDY

For a Marvellous Age!!!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of little pimples, on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. In case of Salt Rheum, Scurvy, Sore Head, Scrofula, Erysipelas, can long withstand its influence.

The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its applications, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East, large shipments of his Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions	Piles	Sprains
Burns	Rheumatism	Scalds
Chapped Hands	Salt Rheum	Stiff Joints
Chilblains	Skin Diseases	Ulcers
Fistulas	Sore Legs	Wounds
Gout	Sore Throats	Venereal Sores
Lumbago	Sore Heads	Wounds of all
Mercurial Erup- tions	Sores of all kinds	kinds.

☞ Sold at the Manufactories of Professor Holloway 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 62½ cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

ARNOLD'S COMBINED

FOOT-STOVE, LANTERN,

....AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To buy any thing more expensive, its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

For sale, wholesale and retail, at

No's 16, 17 and 19 Central Street Bangor.

ALBERT NOYES.

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, respectfully announced to the Traveling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none on the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

HELMBOLD'S GENUINE PREPARATIONS

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY *For Diseases of the Bladder, Kidneys, Dropsy, Weakness, Nervous Affections, Female Complaints*

and all Diseases of the Sexual Organs whether

MALE OR FEMALE,

from whatever cause they may have originated.

No Matter of How Long Standing

This popular and specific remedy is now offered to the Afflicted, and guaranteed to effect all the cures it is taken with less trouble and expense than any other. This infallible remedy has cured thousands from the kingdom of

Mercury Quicksilver

if not from premature graves. In the compound, the Compound Extract Sarsaparilla, the purity of the least constituent of the mixture is preserved forming

A PERFECT MEDICINE

It contains no mercury, or other injurious drug, but is a pure VEGETABLE EXTRACTION. It is very agreeable to the taste, and perceptible odor, rendering it acceptable to either sex without inconvenience. Explicit medical advice, as pamphlet, accompany the medicine. Explicit directions are given in the above concerning diet, &c.

With this medicine the patient can thus prevent all exposure.

Truth must and will prevail.

This medicine speedily cures the most virulent form of secret diseases, eradicates every particle of mercury or other mineral from the system, and restores the patient to a perfect state of *Health and Purity.* And as a medicine which must commend itself to the afflicted, from the simply delicate to the confirmed and suffering invalid, no equal is known to the world, and all who use it will pronounce it the *Cure and Preventive* of all the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla

Purifying the Blood, removing all diseases from Excess of Mercury, exposure and indulgence in life, thereby rendering the constitutional debility arising from an impure state of the Blood, and the only reliable and effectual remedy known for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pimples on the face, Blotches, Tetter, Pimples, Boils, Carbuncles, and all stubborn Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that in a practice of many years since they were introduced to the public, during which time they have received the highest testimonials from various parts of the United States, they have given perfect satisfaction in the various cases in which they have been employed, whether as a mild, comfortable, and effectual purifier of the blood, or as the most decided and magical remedy that ever produced the most salutary and immediate results. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the use of these medicines and their superiority over other preparations for such complaints as they are offered for sale or recommended. Numerous preparations of Sarsaparilla and Buchu, and various remedies for curing them have been given, all of which are recommended as possessing virtues which will differ according to the peculiar combination which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of a great deal of menstrua in successive operations to take out the various extractive matters, and, in consequence, are most frequently unprofitably made, and consequently much impaired, if not rendered entirely worthless. To the ingenious and unskilful manufacturer, and those unacquainted with pharmaceutical operations, it is, therefore, of the highest consideration and importance to the public, and to the credit, that there should be standard preparations of uniform strength and possessing the most active virtues. To effect this, and to create the confidence to, I have made a number of experiments to obtain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and discover the most eligible form for them existing. The experiments have resulted most favorably, with much pleasure I now offer to the afflicted, and the faculty my Compound Fluid Extracts, which contain all the virtues of the above articles, are represented to be made from the purest, concentrated form, and are the most active preparations which can be made.

Two bottles of the Extract Sarsaparilla are equal to a gallon of any decoction or syrup of Sarsaparilla, and one bottle of the Extract Sarsaparilla is equal to the Extract Buchu, and one bottle fully equals in strength the Compound Fluid Extract Sarsaparilla or decoction, &c.

PRICE

Fluid Extract Buchu, $1 per bottle, or six bottles for $5.

Fluid Extract Sarsaparilla, $1 per bottle, or six bottles for $5.

Certificates of a character and from sources of the most distinguished professional men and others, accompany each preparation.

H. T. HELMBOLD,
Practical and Analytical Chemist,
